MOON-DOT (CONTD...)

-
- In this work you can see a golden curve and the *bindu* above it (human form like a *bindu* or dot), making it appear like a *chandrabinu*, the upper part of *Om* or *Pranav*. This work reflects that colour is a form of energy that can stimulate our senses and bring out a range of emotions. He stretches a myriad of colours over scattered geometries of gem-like hues to create refracted compositions.
 - The painting expresses Creation, coming out of the primordial sound *Om*. *Chandrabinu* or moon dot becomes a visual metaphor and the *Om* sound, an inspiration for the work. It stimulates to create rhythms, bringing forth the creation on canvas.
 - The rhythm follows the curve of *Chandrabinu* - the above part depicting the astral plane and the lower physical plane. Thus the *Om* created the subtle as well as the physical, as manifestations of the 'Formless Abstract Ultimate Reality'.
